[Standard for Automatic Exchange of Financial Account Information for Tax Matters](#) (to be updated in due course)

“This publication is the first edition of the full version of the Standard for Automatic Exchange of Financial Account Information. It contains the text of the Model Competent Authority Agreement and the Common Reporting Standard, and the Commentaries thereon, as they read on 15 July 2014.

The Standard, developed in response to the G20 request and approved by the OECD Council on 15 July 2014, calls on jurisdictions to obtain information from their financial institutions and automatically exchange that information

with other jurisdictions on an annual basis. It sets out the financial account information to be exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as common due diligence procedures to be followed by financial institutions.

- *Part I gives an overview of the Standard.*
- *Part II contains the text of the Model Competent Authority Agreement (Model CAA) and the Common Reporting and Due Diligence Standard (CRS).*
- *Part III contains the Commentaries on the Model CAA and the CRS as well as a number of Annexes.”*
